The Boise Statesman says: "The Democrats of Idaho are already getting together. The sentiment in the northern part of the State is evidenced by the primary election in Nez Perce and Idaho counties. A general agreement between the two factions has evidently only been postponed awaiting the outcome of the Republican State convention."

Henry Z. Johnson of Boise, attorney for the Dubois wing of the Democratic party, was in Portland a few days ago, and in the course of an interview pub-lished in the Telegram in the Oregon city, be said: "The Dubois faction has the party correspondence and we have etty, he said: "The Dubois faction has the party organization and we have no doubt that we will be given the party name and emblem when the Supreme Court passes on the case early in September. If we do not get it, the American party will be born in Idaho, and we will affiliate with the Americans in Salt Lake. We will go ahead in this war until there shall be a divorce of church and state as contemplated by the founders of the Government."

FRIDAY TEMPERATURES. .... .... .... 90 degrees

Forecast-Generally fair.

"In the good old summer time." Surely hat was appropriate to the occasion Fri-ay, for the good people of Zion realized hat Prophet Hyatt, the weather doctor, day, for the good people of Zion realized that Prophet Hyatt, the weather doctor, had a little more warm weather in store for them yet. Ninety degrees was the maximum temperature recorded Friday. This is only 5 degrees lower than the warmest day this summer, and judging from the forecast. Salt Lakers may expect another 'roaster' today.

The barometric pressure was still high over the middle plateau Friday, having increased somewhat in emergy, and another high pressure area is central over the Atlantic States. Over the south plateau and along the northern border of the United States the air pressure was low. These conditions caused precipitation over portions of Kansas, Oklahoma, Louisiana, Minnesota and northern Michigan, with heavy rainfall at Oklahoma, 1.36 inches. The temperature changes were slight, except a rise of ten degrees or more over portions of Wyoming, Alberta, Nebraska and Michigan, and a fall of ten degrees over portions of Montana and South Dakota.

The high pressure over this section will

over portions of Montana and Countains Rota.

The high pressure over this section will cause continued fair weather Saturday in this locality.

Friday's meteorological record at the local station of the United States weather bureau for the twenty-four hours ending at 6 p. m. was as follows:

Temperature at 6 p. m. 87.

Maximum temperature, 90.

Minimum temperature, 58.

Mean temperature, 74, which is 4 degrees above normal.

Total deficiency since the 1st of the month, 12 degrees.

Total deficiency since January 1, 230 degrees. Total precipitation since the first of the month, nothing, which is .12 of an inch below normal.

Total excess since January I, 2.46 inches. Relative humidity, 18 per cent.
